AN ENTIRE NEIGHBORHOOD DRUNK—A MYSTERY UNRAVELED—HOW LIQUORS ARE MANUFACTURED.

For some time past, says the Troy *Times*, the inhabitants of Fourth street, between Congress and State streets, a very respectable part of the city, have been annoyed beyond all measure by a very remarkable concatenation of circumstances. First, staid sober citizens, who scarcely ever touched a drop of liquor in their lives, awoke in the morning with all the pangs of debauchery and the sensations peculiar to intoxication. It is said that at times the whole neighborhood, men, women and children, horses, dogs and animals of every description that came within the circuit of this mysterious agency, moved in a sort of stupor, proceeded backward and forward as if they had been indulging in a "gorgeous" and "glorious" drunk. People could not account for the strange phenomenon. In the morning, at five o'clock, the air appeared fragrant with the fumes of whisky, and old topers in a little time began to wend their way toward the point from which the smell seemed to emanate, having discovered the secret of obtaining a morning nip free of expense, and in obvious violation of the revenue laws of the Government. An hour later, the lovers of brandy had all their senses raized to the zenith of happiness by an atmosphere floating in a perfumed sea of cognac. At ten o'clock Jamaica rum insinuated its fragrant presence into the nostrils the citizens of the neighborhood, and so through all the hours of the day a change of potables seemed to be set before the astonished public, whose palates were thus regaled by every species and variety of liquor which education, taste or appetite could crave. Perhaps it is too much to say that the neighbors were intoxicated with delight, and were unanimous in the opinion that they had found the long lost Eden of happiness. They were not. They did not appear exactly to like the change. At any rate some of the neighbors began to complain, and turn up their noses at the smells with which the atmosphere was laden. They sent in a petition to the Health Officer to have the nuisance abated—nuisance they called it who were thus hourly enjoying free of expense all those delightful sensations which the race of mankind generally pay so dear to enjoy and relish with such keen appetites. The Health Officer dispatched the Sanitary Inspector, Mr. William Connors, yesterday afternoon, to investigate the mystery, and William, true perhaps to a natural instinct, after feeding himself in an atmosphere of perfect delight, unerringly traced the perfumed air to its source. In an outhouse attached to the premises of Dr. Webber, a German physician, he discovered a chemical laboratory for the distillation of essential oils for the manufacture of liquors of all kinds. The stench was of a most aggravating description, and William, in as bland a manner as possible, informed the only occupant of the premises, a lady, that he was duly armed to inspect the place and abate all nuisances he found to exist there. The lady said little, and William proceeded with his investigations. Presently, however, the Doctor appeared, and beholding the Sanitary Inspector taking a survey of things in general, he pounced upon him like an eagle upon his prey. Before William had time to expostulate, the enraged Doctor seized him by the throat, and applying a caustic blister to his extremity as it presented itself to his vision, ejected the astonished Inspector from the premises. Finding himself out of the house, and but slightly narcotiated by the air he had been breathing, William had sufficient strength left to wend his way to a police justice and secure a warrant for the arrest of the Doctor.

A COMMITTEE of fifty-six persons, including many of the leading scientific men of France, has been formed in Paris for the purpose of organizing a new expedition to the North Pole. The route to be pursued is one discovered by M. Gustave Lambert, a French hydographer, and has not been tried by previous explorers.

A professional beggar boy, some ten years of age, ignorant of the art of reading, bought a card to place on his breast, and appeared in the public streets as a 'poor widow, with eight small children.'

NEARLY the whole of the officers in command of the Fifteenth Infantry, together with Colonel O'Conner and his wife, have died in Galveston' Texas, from yellow fever.

VIGILANTES IN MONTANA.

The following is from the *Montana Post* Extra, September 26th:

The peaceful equanimity of Virginia was somewhat disturbed early on Thursday morning by the announcement that a man had been discovered close by the stone quarry above the city, hung by the neck, and quite dead. After the numerous canards of last winter, and the fruitless search for bodies for miles in the vicinity of the town, the majority were inclined to accept the story with suspicion, and it was not until a number of gentlemen returned from the scene of execution and confirmed the statement, that credit was given to the rumor.

We visited the place at eight o'clock and found it correct. The place chosen was on a gentle inclination by the roadside in a little ravine back of the stone quarry. The man was Charles Wilson, at one time a companion of Slade's, and an employe of Wells, Fargo & Co. for a short time last Winter. He joined Company D (Foster's) of the militia, and was recently mustered out on the expiration of his term of enlistment. He was of medium size, about thirty years of age, and had been west of the Missouri for several years.

At the place of his execution there was a number of small poles, a portion of a light fence once enclosing the spot. Two or three, perhaps twelve or fifteen feet in length, were tied near one end, terminating in a noose. When elevated, it formed a tripod about ten feet high, and on this frail gibbet the body of Wilson was dangling, his feet just touching the short grass on the stony bank, his arms pinioned behind him, his neck broken, and a placard on his back labeled "Vigilantes."

He was fully dressed, not even his hat having been removed, his pockets untouched and his blanket, for he had evidently been called up in the night and thrown it over his shoulders, was lying close beside him, apparently as he had thrown it down when ordered to mount the block. His death must have been almost immediate, as the neck was broken and no contortion of the face evidenced any struggle. There he had gone in the darkness of night, summoned by that unseen, mysterious agency, evoked in years gone by the lawlessness of the Road Agents, and there, while the city lay slumbering, justice was administered by a court that has no technicalities, and whose only aim has been the punishment of the wicked and the protection of the innocent.

We have been unable to ascertain as yet the history of this man previous to last Winter. He was employed as "helper" on the overland line between Snake River and Pleasant Valley, in March last. While so employed, during the high waters, he drowned some of the stock, and treated the passengers so badly that complaint was made to Mr. Taylor, Superintendent, and he was discharged. Since mustered out of the volunteer service he has been drinking hard: importuned the Stage Company for employment, and, on being refused, has made terrible threats of vengeance.

He was taken down by the Coroner at 3 P. M., placed in a coffin, and decently interred by the side of the five Road Agents, on the hill opposite the city.

This is the first execution by the Vigilance Committee since James Daniels was hung in Helena in the Autumn of '65. The following is the best authenticated of the numerous reports in circulation at the present writing. Charles Wilson was one of a secret organization, numbering thirty-five active agents and over one hundred accomplices, sworn to a certain purpose. It included robbery, incendiarism and murder. They are fully organized, awaiting the concentration of their force, and the shipment of treasure overland after the steamers have all gone, to accomplish their purposes. They have in view also the robbery of certain stores in Virginia, to be accomplished by fires and burglary, and have spotted for murder several prominent citizens, whenever an opportunity offers. This organization has been under the close espionage of the Vigilantes, and every active member is known.

On the night of his execution Charles Wilson swore into the organization one detailed for that purpose, to whom he imparted all necessary information, and when arrested made full confession of their organization and intentions, as above, which had been known by the Committee previously. The leaders of it are desperadoes of the worst character, and they must now abandon their schemes, or cope with an organization more powerful than they.

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine,

HIGHEST Premium! Gold MEDAL!

REASONS:

1st.—Its simplicity and great range of work.
2d.—The Reversible Feed Motion.
3d.—The perfect finish and substantial manner in which the Machine is made.
4th.—The rapidity of its working and the quality of the work done.
5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded, by the Mechanic's Institute of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficent, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering:

Nervous Debility, Loss of Memory, Pain in the Limbs and back, Palpitation of the Heart, Trembling of the Limbs, Headache and an aversion to Genial Society, especially that of Females.

There are a great many more, but these are sufficient, and should you be suffering from any of them, call on DR. TOZER, and he will cure you in a short time, without any interruption in your business,—or state your case by letter, and there will be no occasion for your calling at the office.

STRICTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.

DR. TOZER has for the last forty years given his entire attention to the TREATMENT AND CURE of SPECIAL COMPLAINTS, and will GUARANTEE a cure in all cases. His remedies are Purely Vegetable, and positive in their action.

A CARD FROM THE

AMERICAN WATCH COMPANY,

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and the cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this; European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ancres; Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisite of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL Watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents.

LOOK TO YOUR STOVES.—As the time approaches for our people to put up their stoves and commence making their fires, we would suggest the necessity on the part of those doing so that they exercise care in putting up their stove-pipes. Any one who has lived any time in this country is well aware that a majority of the conflagrations that have occurred have been from the negligent manner in which their fire apparatus has been arranged. Every one owes it to his neighbor as well as himself to see that his premises are protected from the devouring element. Our town thus far has been remarkably fortunate, and it mainly depends upon our community whether we shall continue so of not. To be sure we have excellent water facilities, amply sufficient to prevent a fire, but should a building get on fire on Maine street, no one is insane enough to think we could prevent a general conflagration. The only safe way then is to use caution in preventing a fire under ordinary circumstances.

SOLICITING ALMS.—For several days past an American citizen of African descent has been in our town soliciting alms from our citizens for the support of his family who reside, he says, at Grass Valley. He has one foot minus of toes, but otherwise seems to be enjoying the best of health. We think if he would consent to take a dose of buck-saw he would enjoy a great deal more independence and be infintely more respectable. He is able to work and ought to do it. This thing of donating to every Indian, negro, or a dog because he whines is about played out.

"HOME AGAIN."—We are glad to welcome to our town our friend and neighbor, William H. Hillhouse, who returned last week from a lengthy visit to his parents and friends in the Eastern States. He looks greatly improved by his travels and could doubtless marry to advantage to himself as well that of some good-looking maiden.—There is no telling what may happen, notwithstanding he refuses to buy "hoop" iron now, for fear the ladies may get after him.

PROSPECTING.—Messrs. Kidder & Co., are opening their claims on Squire's Canyon on quite an extensive scale, and will be ready to make their first run on or about the first of November. They are sanguine of having a good thing, and we hope they have, for they are all energetic, enterprising men, just such as the country needs to develop the immense resources now lying idle. Success to them.

KILLED.—We learn from a gentleman who was at the examination, that a man named Wigh or Way, who had been engaged in butchering at Colfax, became intoxicated on Tuesday evening last, and assaulted another, named Noble, with a chair, who, to defend himself threw a stone at Way, striking him on the head and killing him instantly. We have not heard the result of the examination before the Justice.

ACCIDENT.—Last week, Mr. John Waters, of this place, met with quite an accident while working in a mining claim on Rattlesnake canyon, near town. He was picking the side of the bank when a large rock becoming detached suddenly fell, and before he could get out of the way rolled upon his ankle, nearly crushing it. Mr. Waters will be for sometime unaple to return to work.

SOME of the country editors—particularly him of the Dutch Flat *Enquirer*, and that other him of the Marysville *Appeal*, who visited the State Fair, complained of being charged extortionate rates for eating and sleeping. The Meadow Lake *Sun* attributes the ungenerous attempt on editorial exchequers to "verdant, country-like looks."—*Bee.*

Yes, but that Meadow Lake man didn't mean that for us. We had on "store cloth-s," and the Sacramento sharks probably took us for a millionaire! Ahem.

ROBBERY.—On Wednesday evening last, says the Nevada *Gazette*, Thos. Hodge was robbed in front of his dwelling, on Mill street, Grass Valley, of $127 in coin, by one Barney McCardel. The latter was immediately arrested and had a preliminary examination before Justice O'Connor yesterday, and was held to bail in the sum of $1,000, to appear before the Grand Jury. McCardel is an old resident of Grass Valley, and is not a person who would be suspected of committing such an offense as he has been charged with.

COUNTY JUDGE.

Under this head the Placer *Herald* of the 28th ultimo has quite an extended article, in which the writer endeavored to prove that Judge B. F. Myers was a more fit person upon whom to throw the Judicial ermine than his opponent, D. W. Spear, Esq. The writer labored hard to prove that the Judge was a first class lawyer, and being such the people should elevate him to the County Judgeship. He also arrogates to himself the supreme prerogative of deciding which of the two is possessed of the greatest amount of legal knowledge; all of which we think comes with very bad grace from the source, for no one, no matter how great his political prejudice, ever gave the editor of the paper above mentioned credit for any extra knowledge in legal matters. To be sure, he once filled the office of County Clerk, but we believe the more weighty part of the duties were performed by somebody else. We hold that a person to be competent to judge of the acquirements of any one of a particular science or profession must be *well versed* in the matters upon which he is to decide or he cannot be a competent judge. How then can the writer in the *Herald* know of the qualifications of a judge unless he is versed as to what is required of him? Judge Myers has the reputation of being a good lawyer it is true, but because of that reputation does it show that Mr. Spear is wanting in fitness to discharge the duties of County Judge? By no means. We are told that law is founded upon common sense and justice, and that any one possessed of these faculties can understand it. If this is so, we don't know but what we have at least three hundred men in our county as eligible to the office as B. F. Myres. Mr. Spear has discharged the duties of County Clerk of this county for the past four years with signal ability and promptness; during which time he has become familiar, not only with the routine of duties and business of the District Court, but of the County Court. He is a man of quick perception, good judgment, and possesses a rare business capacity. His bitterest opponents give him credit for a good moral character and a high standing in the community in which he has lived since his residence in the county. What then is needed! The majority of the gentlemen of the legal profession of this county are in favor of his election, and no one has yet doubted his honesty or his disposition to render unto every man his due. He is not so independent, it is true, in his every day life, as the Democratic candidate, probably because he was reared in a different community, or by a different code. He does not gamble, nor is he addicted to any of the "small vices" which would bring the blush of shame to the cheeks of his constituents. He has shown himself a man entirely worthy the confidence of the people, is honest and entirely capable, and if elected will discharge the duties of the office with fidelity. On the other hand, we very seriously doubt whether Judge Myres would qualify if elected. We do not believe that he is so anxious to serve the people in the capacity of County Judge as to sacrifice from his practice two or three thousand dollars a year to do so, and we believe there are not two men who know him who will entertain such a ridiculous proposition in connection with the Democratic nominee.

LAND TROUBLES.—A terrible squatter riot occurred in San Francisco on Wednesday evening, last, in which some 150 men were engaged on both sides. The *Alta* calls the two parties the "squatters," and "ousters." It appears that John Center a well known land speculator, employed a party to dispossess some parties from lots claimed by him. A man named Peter Bradley was instantly killed, and Andrew Thompson, Thomas Flamery, and the notorious Tom Coleman, wounded. Five of the rioters were arrested on charge of murder. It is nearly time that the land troubles in and around San Francisco were settled, as more lives have been lost in such riots than the whole land is worth.

FREIGHT.—There is now an immense amount of freight going over the mountains. The freight depot at Cisco remains full; notwithstanding numbers of teams are employed in hauling it away. A hundred mule teams could find profitable employment at Cisco in freighting over the mountains. We learn, also that the depots of the railroad at Sacramento are full, the freight trains being unable to take it away, although the Company have put on extra trains. This savors of a healthy business in the cities below as well as in the interior, and indicates that the stagnation of trade heretofore experienced is wearing away and a more healthful state of things is dawning upon us.

Do you want a first-rate pair of dress boots? If so, go to Joe Mason's, three doors above Burckhalter's, where you can procure a superb article at a reduced price. He has every description of ladies' and children's wear also. Give him a call; he shows his goods willingly, and esteems it a favor for you to look at them.

ATTEMPTED SUICIDE.—A young woman named Lilian Morton tried to kill herself in Virginia City, Nev. on the 5th, by swallowing laudanum. She was pumped out. Cause of the rash act: love and jealousy. She was a lager beer waitress.

DEMOCRACY BLOOMING.

Some time since the Butte county *Press*, a Democratic journal published at Chico, gave great praise to Jeff Davis, Lee, Beauregard and other chiefs for inaugurating rebellion and becoming traitors! The Democratic Committee of that county met soon after and publicly resolved, "That the Butte county *Press*, by the incendiary articles of September 17th, and its general tone of violence and misrepresentation has merited the severest rebuke and condemnation." The editor, in his issue of October 1st, published the proceedings of the Committee, and pays his respects to that body, saying, among other things:

We claim to be independent and fearless in the discharge of our duty as one of the sentinels on the watch tower of liberty. If our course does not please them, and they will courteously point out wherein we are wrong, we may modify to suit them, but we claim the right to speak in terms of praise of Jeff Davis, Lee, Beauregard, or any other champion of correct principles whenever it suits our sovereign disposition to do so, without consulting mortal man. If this redoutable Committee think they can rule all the men entertaining our sentiments out of the party, they have undertaken a herculean task. The leading men in the State hold these opinions: they have stood firm in the darkest hours of adversity, and when the abandon they Democratic party *there will be nothing left of it.*

He also publishes the names of 46 Democrats of that precinct who approve his course, and he says he will furnish more of the same sort—saying as an introduction to those names:

We present below the names of several Democrats who approve our course, and believe the action of the committee meets with universal condemnation by the Democracy of this valley, and if Mr. Lott is defeated he may attribute the result to them.

Mr. Lott is Chairman of the County Committee, but has backed out of the responsibility, as the editor in another place says:

We have heard numbers of the most reliable Democrats in this section of the county declare they would not vote for him [Lott] because of his participation in the matter. We have had an interview with Mr. Lott on the subject, and he condmns the action of the committee—said he had nothing to do with it. We trust sincerely that those of our friends who have thus spoken, will reverse their determination and vote the whole ticket. Mr. Lott should not be held responsible for what the Committee has done, since he repudiates its action.

In an other paragraph the same journal says:

We have "lifted" the first two resolutions of the State platform, and substituted in their stead the first Kentucky resolution. Every Democrat in the State knows they express palpable falsehoods, and dishonor the Democratic party. The Marysville *Appeal* charges that they have stolen that much Mongrel amunition, and the *Appeal* is right. Shame on them!

The *Press* also gives place to a correspondent, who says:

Whilst a sense of party policy may render the position of doubtful utility to the interests of the party under existing circumstances, to every Democrat who may justly claim a knowledge of the issues which divided the country in opinion, there can be but one legitimate deduction from the position taken and action had in relation to the political articles of party faith. Let, then, the party stand true to its time-honored tenets and principles. If Democracy is right, then is secession right. If Republicanism is right, then is secession wrong. This is the only issue—all the rest are subsidary and of secondary importance. This was the issue which gave to Democracy its late triumph in this State, as it has done in others.

There, that will do for the present. The Democracy of Chico publicly indorse the *Press* on this question of secession!—*Sacramento Bee.*

SUMMONS.—State of California, County of Placer.—In Justice's Court, before Charles E. Olney.—The People of the State of California to JOHN JONES. You are hereby summoned to appear before me at my office in Cisco, in Township 11, in the county of Placer, on the —— day of ——, A. D. 186 , at 2 o'clock P. M., to answer the complaint of THE CISCO SAW-MILL COMPANY, wherein they pray judgment against you in the sum of Ninety eight 68-100 dollars upon a contract for lumber sold and delivered to defendant by plaintiff, when judgment will be taken against you for the above amount, together with costs and damages, if you fail to appear and answer.

To the Sheriff or any Constable of said county, greeting: Make legal service and due return hereof.

Given under my hand, this 5th day of October, A. D. 1867. CHAS. E. OLNEY,

It appearing to the Court from the return of the Constable in the above entitled case, that personal service could not be had upon the defendant, upon affidavit of plaintiff setting forth that defendant is concealing himself for the purpose of avoiding service, it was ordered by the Court that publication be made of the summons in the Dutch Flat ENQUIRER, a newspaper published in Placer County, for the period of two weeks from date hereof.

LUKIN'S
WINES AND LIQUORS,
332 MONTGOMERY STREET
lltf **San Francisco.**

ACCIDENT AT RIO VISTA.—On Thursday last, says the Solano *Press* of the 9th, a Mr. Howard, a hunter, was attempting to draw his boat, which contained his gun and game over a ditch; by some mishap the gun slipped, striking the cock against the side of the boat, firing off one of the barrels, and he being in range of the gun, the contents struck him on the left arm near the shoulder, shattering it into fragments. Dr. Campbell visited him on the same day and amputated the stump near the shoulder. This accident leaves the poor man entirely armless, as he lost the other arm about ten years ago by a similar accident.

SERIOUS ACCIDENT.—The Nevada *Gazette* of October 8th, stys that quite a serious accident occurred in the claims of the Eagle Company at Relief Hill, a few days ago, which will detain them from working for some time. They had run a new tunnel to tap the deposit at the lowest point in the channel, and sunk a shaft to connect with the tunnel through a hundred feet or more of bed-rock. The rock was so solid it was supposed the shaft would stand without timbering, but they had only worked a few days when the upper part caved, thus forcing them to suspend operations. They are now engaged in reopening the shaft, commencing at the surface and curbing it in a substantial manner.

THE big blast now being prepared in the claims of the Union Company, near Nevada, will be ready for firing in about ten days or two weeks. This will be the heaviest blast of the kind ever set off in the State—750 kegs of powder being used.

CORRESPONDENCE BETWEEN THE UNION DEFENDERS AND GEORGE C. GORHAM.

MARYSVILLE, September 25, 1867.

Hon. Geo. C. Gorham, San Francisco:

DEAR SIR—At a meeting of the Union Defenders of th city of Marysvile, held on the evening of the 21st instant, the following resolution was introduced by J. G. Eastman, Esq., and passed unanimously:

Resolved, That Hon. George C. Gorham be elected an honorary member of this Club, and that the Secretary address him, informing him of these proceedings.

I obey the above instructions with pleasure, and trust you will so far honor the Club as to accept the same

I am, sir, very respectfully,
Your obedient servant,
THEODORE A. COULT,
Secretary.

GORHAM'S REPLY.

SAN FRANCISCO, September 28, 1867.

Col. Theodore A. Coult,
Secretary Union Defenders, Marysville:

DEAR SIR—I am in receipt of your communication of the 25th inst., informing me that I had been unanimously elected an honorary member of the Club of "Union Defenders."

I accept with feelings of pride the honor conferred, and have to request that you will place this note before the Club.

It is an honor to be counted worthy of a place on the roll of Marysville Union men, with whom I have labored side by side during the early days of the Civil War, and with whose patriotic hearts mine has throbbed in unison to the present time.

The future must be dealt with by true men with no other reference to the past misfortunes of he party than may be found necessary for avoiding like disasters hereafter.

The fault of our late defeat does not, of course, lie at the door of those who did their duty by supporting the nominees of the party at the polls.

Let us do our best to harmonize honest differences of a persoual character—gently chiding the many who neglected to vote from carelessness, rather than hostility, and dismissing all feelings of anger toward the lesser number who foolishly lent an ear to the unscrupulous falsehoods of two or three mercenary or corrupt papers, which, under a cry for purity, aided rotten and treasonable Democracy to power.

The true character of those once influential papers being now fully known, tehy will never be able to create divisions in our ranks again. Out of the nettle of this defent we shall pluck the flower of future victory.

Your organization cannot fail to be useful to the cause of the country if the radical principles of the party of Congress are kept constantly in view—as I know they will be—and elevated high above all considerations of a merely personal character.

It will afford me great pleasure to meet with your Club when I visit Marysville.

With high esteem, I am truly yours,
GEORGE C. GORHAM.

MURDEROUS ASSAULT.—A murderous assault was made on a special police officer, named Caton, at San Francisco, on Tuesday night. He was proceeding on his beat, when he was suddenly attacked by five or six men whom he could not recognize.—One of them struck him a blow which stunned him, and when he recovered he found his throat cut and bleeding profusely, and his pistol and star were gone. He made his way to a drug store, where his wounds were dressed. Several small blood vessels of the neck were cut, and his condition is considered precarious.

CHOLERA!

MR. PERRY DAVIS:—Sir: The benefits I have received from the use of your invaluable remedy, the Pain Killer, induces me to pen you a word in its praise. Experience has convinced me that for Headache, Indigestion, Pain in the Stomach, or any other part of the system, severe Chills, Weariness, common Colds, Hoarseness, CHOLERA, CHOLERA MORBUS, Diarrhœa, Dysentery, Toothache, etc., THERE IS NOTHING BETTER THAN THE PAIN KILLER. I have this hour recovered from an attack of the Sick Headache, by using two teaspoonsful, taken at thirty minutes interval, in a wine glass full of hot water. I am confident that, through the blessing of God, it saved me from the cholera during the summer of 1843. Traveling amid heat, dust, toil, change of diet, and constant exposure to an infected atmosphere, my system was daily pre-disposed to dyssentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or, at the most half a day. I have heard of many cases of Dysentery being cured by its use. Put in the teeth, it will stop the toothache. Gratitude and a desire for its general use, has drawn from me this unsolited testimonial in its favor.

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

INTENSE HATRED OF NORTHERN MEN.—A Savannah correspondent of the Hartford *Press*, who has traveled through all parts of Georgia, confesses to great disappointment in finding a large proportion of the inhabitants insolent, arrogant, and very bitter in their feelings towards all the Northerners. As instances of the popular spitefulness, he mentions the case of an officer of the Freedmen's Bureau, who had occasion to visit a place of summer resort, on public business. As soon as his presence was known at the hotel, fifteen guests left and went to another house, saying that they would not sit at the table with a Yankee officer. A few days later, an officer who commanded the party which captured and killed Wilkes Booth, visited the same place.

The landlord of the first hotel above mentioned could find no room for him, except in the servants' quarters. He therefo e went to the other establishment. All the boarders immediately stampeded for the house from which he had been excluded, and found rooms without difficulty. Where their interests c mpel them, Southern men treat Northerners politely, but it is seldom that the women of the family will do so. If any of them should be independent enough to receive a "Yankee," she is cut by her acquaintances; the beaux who spend their time in flirtations and in eulogizing Booth and denouncing Lincoln, being especially severe on all who show loyal men the attentions which they would monopolize for themselves. There is, of course a Union party among the whites, and it is growing in numbers and strength, but the influence of society is still thrown on the side of "Yankee hating." The writer sums up as follows:

"I fear this generation is ruined, morally, physically and politically; their domestic system and the conduct of the war, on their part, have destroyed their sense of honor. They show no signs of improvement; they lack industry, are sullen and morose, and do not reciprocate our generous offers of restoration. Shall we not be obliged to wait until we can populate the country by population, infusing new and healthful blood into the new generation, before we can again trust them with self-government? I hope not but do much fear it. And now this military government is the best they have ever had, and the safest for nations and individuals; why should the United States pay the expenses of it, when the Southern people compelled us to institute it by their treason, and it is for their benefit? They admit that they are well and justly governed, and I think they ought to be taxed to pay the expenses arising therefrom."

THE UNION PLATFORM.

The Union Party of the State of California, in Convention assembled, hereby present to the people of this State their platform and declaration of party principles:

Resolved, That in the present, as in the past, we are irreconcilably opposed to treason and to traitors, whether the same shall attempt to subvert our Union and control our Government by fraud and treachery from within, or force from without; and that upon the loyalty of the Nation, tried and proven, we rely to re-establish firmly and forever the bonds of our National Union.

Resolved, that in reconstructing the nation its foundations should be justice and its architects loyalty, and we are unwilling that those so active to destroy, should be the chosen and preferred builders to erect it, and until it shall appear that in the States lately in rebellion loyal Committees exist capable and ready to administer justice and enforce law in accordance with the principles of a government of freemen and equality, it is our wish that the Government be administered and the law enforced by the loyal agents of the Federal Government.

Resolved, That in the reconstruction plan of the late Congress we recognize a policy as wise as it is magnanimous, and when the respective States late in rebellion shall bring themselves within its provisions, we will welcome them as sisters and receive them as equals in a reconstruction Union.

Resolved, That we deem the passage by the Legislature of a law establishing eight hours labor as a legal day's work, eminently just and proper.

Resolved, That the importation of Chinese or any other people of the Mongolian race into the Pacific States or Territories, is in every respect injurious and degrading to American labor, by forcing it into unjust and ruinous competition, and an evil that should be restricted by legislation and abated by such legal and constitutional means as are in our power.

Resolved, That the future primary elections of the Union party in this State should be held under the provisions of the primary election law, and that such test should be prescribed and enforced as shall exclude all persons not members of the Union party.

Resolved, That we fully approve the amendment to the Constitution of the State, presented by the Legislature of 1866, and providing that the Legislature shall have no power to make an appropriation of money for any purpose whatever, for a period longer than two years; that the same should be accepted by the Legislature, adopted by the people and become part of the Constitution of the State.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it, in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases; and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Ineipient consumption, and all diseases of the urinary organs, in either sex, cure always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and menta organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that he one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute, established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 536 Washington street, San Francisco. Dec-3m

"MEDICAL ADVICE."—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks not by defamation of others to establish his reputation or ruin another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News.

SPECIAL MEDICAL NOTICE.—DR. CHAS. H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francisco. Having relinquished my old modes of advertising, which has become so common with all the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, corner of Kearny and Jackson streets, San Francisco.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of their Monthly Sickness, and all other diseases that the Female System is subject to, will find prompt relief by applying to DR. TOZER.

My Female Monthly Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office. Price $5 00 with full directions on each Box. Sent by mail or express.

Address CHAS. H. TOZER, M. D., San Francisco, Cal., or Lock Box, 1884. Consultation Free. ☞ All communications strictly confidential.

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco, Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, sex, etc.
